EVIDENCE BEFORE AESTHETICS

A real identity. A new expression.

Woman-owned + bikini coffee	Published business advertising supports both attributes.	S1, S2, S3
Pink + playful personality	An indexed social bio describes a pink coffee house; the voice is cheeky.	S4
Vegan + drive-through positioning	Supported in ads. Current ingredients and menu still need confirmation.	S1, S2, S3
Existing visual history	A 2025 ad uses dark green and leaf imagery. Pink is a proposed evolution.	S1

Primary website action

A useful introduction

Meet Baeristas: a woman-owned bikini coffee stop in Portland. Espresso, smoothies, and energy spritzers, served with personality.

Avoid invented founder stories, claims about employees' past careers, exclusivity claims, or unconfirmed menu promises. Let the team choose how it is represented.

THE ART DIRECTION

Attraction through atmosphere.

The photograph should make you want the drink and feel welcome at the window.

01 / PRODUCT

Close. Tactile. Delicious.

Approved drinks photographed close up: condensation, light, and texture. Cream or blush backdrops.

02 / SERVICE

Confident. Human. Warm.

Adult staff, with explicit approval for each use. Eye-level framing, chosen styling, natural interaction.

03 / PLACE

Local. Real. Recognizable.

Actual stand exteriors and service windows. Include approach views that help people recognize the stop.

Shoot list: one hero drink, one image per confirmed drink category, two stand exteriors, one service-window interaction, and one branded-cup detail. Capture 4:5, square, and wide crops.

No staff or storefront images are fabricated in this kit. All application art is original vector concept artwork; photographed subjects and branded production assets still need to be supplied.

BRAND IN THE HAND

Good taste.
Great company.

01 / CHERRY SLEEVE

02 / ESPRESSO SLEEVE

A coordinated system for announcements, drink features, and visits. These examples use original illustration.

01 / Brand moment

One short thought. Large type. One symbol.

02 / Drink feature

01

Make the visit easy

Lead with the brand, drink categories, and directions. Design the mobile visit path first.

02

Keep the personality

Large serif headlines, tactile pink surfaces, confident copy, and real business photography.

The small composition at left is a visual system study, not a completed website. The next phase expands this into desktop and mobile layouts.

READY TO USE, READY TO REFINE

A practical kit for the next phase.

INCLUDED	PDF brand guide; outlined SVG wordmarks; heart and bean-heart marks; SVG pattern; color tokens; licensed font files; editable PDF-generation source.
OWNER CONFIRMATIONS	Preferred full brand name, existing logo files or guidelines, current vegan/menu claims, both locations and hours, social handle, approved staff and drink photography.
PRODUCTION NOTES	Digital colors are defined in sRGB. Ask the printer for substrate-specific CMYK conversions and a physical proof. Cup drawings are concept mockups, not dielines.
NEXT / WEBSITE MOCKUP	Apply this system to responsive desktop and mobile layouts. Use directions as the primary action; expose menu, social, and ordering links only when verified.
